Shaping a brighter future for the next generation...

# About the PAC...

As a parent, you play a critical role in shaping your child's early learning experiences. That's why we've created this council - to provide you with a platform to voice your thoughts, concerns, and ideas about early childhood education in Oregon. Our goal is to empower parents like you to be active participants in the decision-making process and help us create policies and programs that benefit all children. We believe that by working together, we can make a meaningful difference in the lives of our children and our communities. We invite you to join us and become part of this important conversation.
